## New Member Takes Seat On Hospital Board of Trustees

Herman L. Close Is Sworn In At Meeting Of Governing Body

At the regular monthly meeting of the Southwestern Palm Beach County Hospital District Board of Trustees held Monday at the Belle Glade Memorial Hospital, Herman L. Close of Belle Glade was sworn in as a board member. He was appointed last week by Acting Governor Charlie Johns to replace George Royal, whose term had expired in June. Other board members present were Herbert Beck, chairman, Eric Sigg, Harold Rubin and C. A. Thomas.

During the reading of the minutes of the last meeting, three subsequent special meetings of the board it was brought out that a courtesy member of the medical staff had appeared before the board to register complaints about the operation of the hospital. At a regular meeting held September 20, it was since this complaint that the "York incident" had occurred at the hospital, bringing the institution into unfavorable focus and resulting in a letter from the Governor being assigned to probe into the operational procedures employed.

Dr. S. J. Simmons, veteran Belle Glade general practitioner, was approved unanimously by the board for associate membership on the medical staff. The present by-laws, rules and regulations provide that one year must be served on the staff in the capacity of associate member before a physician or surgeon is eligible for full membership. It was the first time Dr. Simmons had made application to become affiliated with the local hospital.

Hospital Superintendent D. D. Parke was authorized to represent the local hospital at the Florida Hospital Association and the Blue Cross Society at Palm Beach Shores commencing November 19.

A committee composed of Dr. J. Allen Baker and Dr. E. E. Christian has been appointed by Dr. Ralph Pipes, chief of the medical staff, to study and make recommended changes in the by-laws, rules and regulations governing the medical staff. This committee did not have a report for the meeting of the board.

The amount of approximately \$2,400 was authorized written off the hospital books. This amount represented uncollected bills for the fiscal year 1953 which are now more than a year old.

The purchase of an air conditioner for \$340 to be used in a private room was authorized. An additional charge will be made for the room to defray the cost. The superintendent was also authorized to enter into agreement with a West Palm Beach exterminating concern to keep the hospital free of pests at a cost of \$20 per month on a yearly basis.

## NEWS OF GLADES BOYS AND GIRLS IN THE SERVICE

S/Sgt. James Howard Woodham completed four years service and received his discharge October 5, from Hunter Air Force Base where for the past 18 months he was Air Force Flight Leader. Woodham has been stationed at the Savannah base the past three and a half years, during that time making two TDY trips to England. He and his wife, the former Darline Mathewson, and their four sons, Randy, have been the past week with relatives in South Bay and are moving this week into one of Willets Apartments.

Yeoman J/C Robert Williams and family have returned to Norfolk, Virginia, after spending a week here with his mother. (Continued on Page 4)

## CAP Squadron of Belle Glade Gets 15 Cadet Members

Much Interest In Local Group Is Displayed At Sunday Airport Meet

The Belle Glade squadron of the Civil Air Patrol was rewarded for its efforts in putting on a barbecue, free flights and a helicopter demonstration last Sunday at the local airport when 15 members of their CAP cadet program.

The cadet program now being inaugurated by the local squadron offers many advantages to boys and girls from 15 years old and over. In the case of boys who most likely will eventually be called to active duty in the Armed Services of their country, the training acquired under the cadet program will eliminate necessity of basic training in the Air Force, according to Captain B. E. Weeks, squadron commander.

Recently the Engineers found that the building of the dike along the original line was objected to by the Henry County cattlemen, so the borrow pit from which the material will be not was planned with regular sides and bottom so that it would serve as a runoff canal for flood waters.

This "borrow pit" will take off a substantial amount of the normal flood waters. The dike open in each 250-foot stretch thereby allowing flood waters to continue to flow eastward on the muck has been proposed and at a meeting in Cleveland recently it was okayed by land owners there.

Now, comes landowners from the east saying that the present plans for a "dike with holes in it" is not what has been planned and is not giving them a fair break. An access road three feet high is being discussed.

When connected to the dike, will prevent flood waters from coming east except once each year.

The meeting today is to attempt to iron out any differences and present to the Board a unified front with a sort of compromise suggestion.

The notice also invites written statements to be submitted to the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington, 25.

The U. S. Engineers will have a representative at the meeting today to answer questions and the two groups reach an amicable solution.

There is in question some \$500,000 which is available to begin work immediately.

Miss Jeanette Waddell, senior at the local high school who is a 4-H club member, won the county 4-H club winner this past year in Clothing Achievement. Her records were entered in state competition this summer and they were chosen as being the best in the state, and as a result, she will receive a trip to the National 4-H Club Congress in Chicago, November 28 through December 4.

Jeanette is 16 years old and has been a 4-H club member since 1938. During her 4-H Club years, she has completed projects on Clothing, Gardening, Food Preparation, Baking, Home Improvement, Canning and a Freezing and has always done well in her projects.

This year Jeanette was responsible for the 4-H Fashion Review, entitled "Fairly Land Fashions." Under her direction the club wrote the script and planned the entire dress review which was held in West Palm Beach.

## Proposed Changes In Drainage Plans Upset Landowners

Construction Of Dike "With Holes In It" Is Believed Unsound

A group of a score or more of landowners from Canal Point around to Cleveland met in the Belle Glade Chamber of Commerce office Wednesday night to formulate plans for a meeting to be held Friday morning with cattlemen and farmers from the Cleveland area to attempt to reach a mutually agreeable decision on the actual construction of dikes L-1 and L-2. The plans for the enclosure of the agricultural area which were finally authorized by Congress this year include dikes L-1, L-2 and L-3 reaching from Moore Haven area down to the southwest corner of the Conservation Area No. 3 in Broward County.

Recently the Engineers found that the building of the dike along the original line was objected to by the Henry County cattlemen, so the borrow pit from which the material will be not was planned with regular sides and bottom so that it would serve as a runoff canal for flood waters.

## Public Hearing On Sugar Needs Is Set

War? No Help?

From now until November 20th local American Legion Auxiliary will accept donations in kind or cash to make available Christmas presents for her-ill veterans to be sent to their families and loved ones. Your donations will make possible the operation of the Joy Shop in veterans hospitals.

Donations of gifts, toys and cash may be left at H. C. Pence Co. by Mrs. Effie Allen or any member of the local Legion Auxiliary. They will explain in detail the operation of the "Joy Shop". So, lend a hand and help the Auxiliary help the "Joy Shop" be full of joy.

The U. S. Department of Agriculture announced today that a public hearing will be held on November 9, 1954, in Washington, D. C., on sugar requirements for 1955. The hearing will be held in the Thomas Jefferson Memorial Auditorium, South Building, U. S. Department of Agriculture, beginning at 9:30 a. m.

The hearing will afford all interested persons an opportunity to present data, views, or arguments with respect to sugar requirements and the establishment of a sugar quota for the continental United States for the calendar year 1955. The principal matters for consideration will be (1) the manner of determining deficiencies or surpluses in inventories of sugar, (2) the effect upon requirements of various changes in demand conditions, (3) the effect of the prospective 1955 level and trend of consumer purchasing power upon requirements, (4) the manner in which the relationship between the wholesale price of refined sugar and the general cost of living in the United States should be considered, and (5) the relative importance of the foregoing factors.

The notice also invites written statements to be submitted to the Director of the Sugar Division, Commodity Stabilization Service, U. S. Department of Agriculture, Washington, 25.

The U. S. Engineers will have a representative at the meeting today to answer questions and the two groups reach an amicable solution.

## Fiber Production On A Large Scale May Be A Reality

Former Congressman, Representing Governor, Inspects Possibilities

An organized effort to promote the production of fibers on a large scale in the Glades has been added to materially through the visit of J. Hardin Peterson, former Congressman from Lakeland, who spent Saturday visiting fiber fields here.

Mr. Peterson to visit the Glades and lay the ground work for a visit by Mr. Peterson and the Governor to Washington to request definite action on the proposed jute mill for the Glades.

Mr. and Mrs. Peterson visited recently and on Saturday morning as well as the fields of Mr. Alec Ramey just across the canal from the jute mill, he by a continuous flow of questions to Dr. Allison, Her-

The Belle Glade Chamber of Commerce and the P. B. County Board of Commissioners were represented at a luncheon held at the Bend for the former Congressman and his wife and an open discussion was held on the proposed jute mill and plans for preparation of a brochure for the Glades.

A visit to the more-than-a-thousand acres of ramie at Shavano Plantation and in inspection of the delecting and drying facilities used in the jute production of 51 and 52 was made.

In the afternoon Mr. Peterson conducted a tour of the jute fields of the Kruse Brothers and saw further information on ramie and a substitute for these farmers. Mr. Jacy assured Mr. Peterson that his 500-acre machine will handle ramie in the same way as it does ramie and the Governor's representative became an active participant in the production of jute on account of the practicability of field delecting.

Mr. Peterson reviewed the list of physical facilities and the practicability of growing kenaf on the Glades. He pointed out that too many voters fail to vote on amendments because of lack of understanding of their intent and that amendments are placed on the ballot by majority vote.

What is a bill? was also explained. This includes has a substantial potential in the production of fibers, and that ramie production is a substitute for expansion with methods, equipment and machinery that has been developed in the paper industry. He always felt enthusiastic about ramie and have a very large field built up over the years. You farmers seem to have joined hands with the Everglades planters to produce methods of growing and machinery for removing the fiber in a sound and economical manner.

Following the request of the Governor and Mr. Mayo I want to get to the heart of the matter. You and help make up a campaign of selling the use of ramie to our local market. (Continued on Page Four)

## Florida Community Refused Free Electricity Offered By Edison

Electricity is taken for granted by hundreds of thousands of Floridians who use it every day for purposes as far apart as heating homes and vacuuming venetian blinds, but there was a time when some Floridians refused free electricity.

Back in the Gay Nineties, Thomas Edison, inventor of the first practical electric light, offered one Florida community free electric lights. The offer was refused. "Disturb the cows," he was told.

This year — the 75th anniversary of the invention of the light — this community that refused Edison's offer is joining cities and towns throughout the United States in celebrating Light's Diamond Jubilee. A two-hour TV "Light's Diamond Jubilee" show has been planned for October 24, and will be carried by all Florida television stations.

With the increasing popularity of electricity, Edison's invention, has come the job of supplying power wherever needed. The job of keeping power at the consumer's fingertips in the amount they want, when they want it, is a job that keeps thousands of Florida Power & Light Co. employees on their toes.

The job of keeping power flowing when and where needed in the workhardened hands of "grunts," load dispatchers, engineers, linemen, plant workers, statisticians and office workers.

The involved operation that finally toasts your toast every morning, starts with the arrival of fuel oil from Texas or some Caribbean port. From the tanks the oil is pumped through a series of tanks and into boiler furnaces where miles of pipes contain purified water, from which steam will be made.

Adjusted so it will burn smoothly, the oil is admitted. Its fierce heat turns the boiler water into steam at a temperature of 900 to 1,000 degrees F.

The steam, under pressures of up to 1,500 pounds per square inch, is fed into turbines, spinning them and the generators, themselves at 3,600 revolutions per minute. That speed gives 60 revolutions per second, the familiar 60-cycle current for which almost all electrical equipment is designed.

How many of the generators on the F&L line will be running at any given time is determined in advance by the load dispatchers. They take into account weather, which causes electric lights, fans and air con-

ditioners to be turned on or off; mealtime, when thousands of electric stoves will come on; the time at which the district falls, which means hundreds of thousands of electric lights snapping on, and other factors.

Electricity cannot be stored. It must be manufactured the instant it is used.

The greatest peak usually comes in the evening when so many lights and the main meal of the day is prepared, all at about the same time. The second and highest drain of power comes shortly before noon, when housewives are washing and ironing or start fixing lunch and when restaurants are ready for the non-rush. Residential use of electric power in the other daylight hours falls sharply, but commercial and industrial uses continue.

Dispatchers have to keep all of this in mind when deciding how much of a load the system will carry for any one day. The problem is to keep enough reserve power, but little enough so that costs are kept low.

Economy measures like this concern F&L often. Even the purified water used for steam is used over and over again. Edison planned it all back in 1879.

## Assembly

The high school band had charge of the program in assembly, last Thursday. Mr. Hobson made some announcements and David Anderson and George Goforth spoke about the state FFA convention they attended at this summer in Dayton, Beach.

Everyone enjoyed hearing the band in assembly for the first time this year. They played some march numbers, featuring the cornets in "Military Escort" and the trombones in "Shoutin' Liza" and "Dusty Trombone." They also played some popular tunes, including "Sh-Boom" and "Boogie March."

At the close of the assembly, band played Belle Glade High School's "Alma Mater."

Junior Red Cross

The high school Junior Red Cross had the honor of being host to Mr. Livingston L. Blair, national director of Junior Red Cross, last Thursday afternoon.

Mr. Blair had lunch at the school and then at the meeting, answered any questions of the Red Cross Representatives.

Other than the officers of the organization, and their sponsor, Mrs. Ruth Langworthy, those at the meeting were: Henry O. Earwood, Mrs. E. D. Humphries, Mr. Frank O. Hobson, Mr. Dick Morris, Mr. George Anderson, Mrs. Frank Dooley, Mrs. Pringle, and Mrs. Luther Martin.

Even though you haven't heard from the club, it is still in the plan to keep you in the loop.

On Thursday, Oct. 6, the club met at the home of Mrs. Helen Anderson, 608 S. E. 1st St.

## Band Parents Meet

The band parents association held their regular meeting Tuesday night and reports were made that the Coke machine had been purchased for the Band Room.

Mrs. Peggy Pike reported that chapters for the band for the remaining out-of-town games, were lined up. Mr. John Munroe, band master, stated that 35 students were now in the marching band.

Dr. J. Allen Baker Speaks To Jaycees

Dr. J. Allen Baker, guest speaker at the Jaycees regular dinner meeting last Thursday night at the Country Club spoke on necessary first aid treatment of emergencies in home or prior to obtaining a doctor.

He also demonstrated the new method of applying artificial respiration. Baker chose this topic due to the fact that most of the members have no training in first aid and the information would be helpful in case of accident or emergency.

Resignation of Dan Beardsley, first vice-president and member of Board of Directors, due to illness in the family and also resignation of Dr. Thomas Baker due to increased duties in his profession, were accepted. Larry Reynolds and Tommy Parker were appointed to fill the unexpired terms to the Board of Directors.

With Louis Lowery transferred to position of first vice president and Dan Beardsley, second vice president left vacant by Lowery.

The group welcomed Rodney Ketchum, Richard Harris, Homer Hand, Martin Rashley as new members. Kenneth Bue and Hubert Ellis were appointed co-chairman of a committee to report at the next meeting the progress of the possibility to have a raffle at Christmas time.

Eddie Crosby, chairman of committee on Carnival project reported that one feature of the project would be a prize given each individual admitted. Announcement was made that "Boss Night" would be held on November 11 and members expecting their boxes to attend are urged to do so.

tone for the score. A pass for the extra point was knocked down and the score remained 6-8 at the half.

To open the second half Stuart kicked off to Belle Glade, who received and drove down to the 15 yard line, but were held for downs. Stuart moved the ball out but was forced to punt. The Lambs again reached the 15 yard line but two 15 yard penalties put them back on the 45 yard line. From there Gary Perkins passed to Earl Williams who clipped and ran for a touchdown. A key block by Benny Powell put Williams in the clear. The extra point was blocked with the score now 12-6. The game closed with Stuart throwing desperation passes.

The Lambs are steadily improving in the pass defense, and the outstanding players were: Gary Perkins in punting and Wayne Ingram and Larry Harris in running.

This was the same Stuart team that beat Pahokee 34-14. The Lambs face Seacrest next Tuesday night in Seacrest.

Belle Glade Lambs Defeat Stuart 12-6

A touchdown was made by Stuart about three minutes after the game started Tuesday night on Memorial field. They made several first downs until they lost the ball on a three yard pass for the score. No extra point was made. Belle Glade moved on the kickoff and was unable to score. Then after an exchange of punts, they drove down to Stuart's 45 yard line to lose the ball on a fumble. This was corrected shortly when Charles Schoenfeld intercepted a Stuart pass. At this point there was some field smashing by Larry Harris and Robert Archie. Wayne Ingram carried the ball to the 5 yard line where Skipper Poole took a handoff and cras-

ed over the tackle into the end zone for the score. A pass for the extra point was knocked down and the score remained 6-8 at the half.

Well, it's time for the witches and goblins to be riding across the night sky again... with Halloween not more than a "boo" and a jump away. The way the world has gone lately, goblins have about as much chance of scaring us as Bugs Bunny. About the best a goblin can hope for is that he'll be mistaken for a flying saucer pilot.

Still, it's a big night for the amateur spooks who borrow an old sheet from home and tour the neighborhood. So don't be caught short when the "trick or treat" crew comes a-knocking on your door. Make sure you have a few treats on hand for the visitors... and it just might save you from the wrath of the "spirits." Of course, they're only kidding about "tricks"... but what if they aren't?

In Hollywood, when a columnist told actor Marlon Brando that he looked just like everybody else, he stared at her, turned around, and stood on his head on the sidewalk. Guess he showed her. Everyone likes to be a little different... which helps to explain why there are so many different shades of lipstick, for instance. You can't find a wide choice of famous Dorothy Gray, Revlon, Yardley and Lenthia cosmetics to express your personal beauty, at GLADES DRUG STORE.

**Nash Home Scene Of Family Reunion**

The home of Mrs. Rosa Nash was the scene Sunday of a family reunion to welcome back to Stateside duty, Master Sergeant and Mrs. James O. Mayton and two sons, Bill and Jimmy. The Mayton family made the trip from Fairbanks, Alaska where M/Sgt. Mayton was stationed for the past two years with the 500th Air Medical Squadron, by car. They reported the roads in good condition with only about 400 miles in very bad shape and 1800 miles of gravel roads. The trip to Belle Glade put a mileage of 5,700 on the car and put them through two extremes of temperature—from snowing in Alaska and Canada to intense heat after hitting the States at Great Falls, Montana.

Present at the reunion were Mr. and Mrs. Thomas Chappell and three sons, Richard, Stuart and Geoffrey; Mr. and Mrs. Carl Lockmiller and two children, Charles and Yvonne; Mr. and Mrs. Landon A. Dumb and two children, Melissa and Eddie. Mrs. F. H. Dumb and Johnny Dumb of LaBelle, Wm. H. Dumb of Immokalee, and Millie Nash, student at Rosarian.

The Maytons, who have been the guests of Mrs. Nash since their arrival, left Tuesday for Orlando, where they will make their home. M/Sgt. Mayton is stationed at Pinecastle Air Force Base.

Among those who will attend homecoming game at Stetson University in Deland on Saturday are Miss Marianne Womack, Miss Bonnie Williams and Franklyn Jones.

Mr. and Mrs. C. L. Caruthers of Tampa spent the weekend as guests of Mrs. Uebea Caruthers at her home on S. E. Third St.

Miss Donna Jean Norris and Miss Barbara Wedgworth, students at Southern College, Lake

cake and punch were served. Guests were Lee Ann Berryhill, Janet Hotard, Suzanne Williams, Paula Todd, Bernice Beardsley, Jeannette Riedel, Wilma, Robbie and Millie Kirchman, Karen and Evelyn Harris, Suzanne and Patsy Wilkinson, Jimmy Baker, Linda Sloan and Cynthia Clayton.

**Party Compliments**

Mrs. Jesse Motes was complimented Saturday night at a surprise birthday party at the American Legion Club Room, with Mrs. J. B. Jones, Mrs. Morris Coleman, Mrs. Junior Dean and Mrs. Homer Brooks as hostesses for the affair.

The group played games for the evening's entertainment and refreshments of birthday cake, canapés, candy and drinks were served.

## Negro Leader Makes Appeal To Both Races

Birmingham, Ala. — The current (October) issue of The Progressive Farmer carries a remarkable appeal by Sidney J. Phillips, a man who is considered one of the wisest leaders of southern Negroes.

Phillips says, "I'd like to ask all thinking southern whites and Negroes to do all that is in their power to prevent strained relations between the races — regardless of what any further action of the Supreme Court may be."

"As Negroes, we enjoy association among ourselves — provided we are given the same opportunities for development that other racial groups enjoy. We should not wish to force ourselves upon others who have

the same right as we to choose their friends and associates. Given equality of opportunity for development, the Negro can set about the job of earning for himself the respect and goodwill that is due every worthy American."

"In a final analysis of the situation, I would like, if permitted, to advise those who are responsible for the allocation of funds for public education to leave no stone unturned for help that will make equality of educational opportunities possible."

"And, advisedly, to my own people, I would like, if permitted, to advise them to be placed in your hands to earn for yourself the contentment and fullness of life that is open to every American who is willing to pay the price of success."

"Like Booker T. Washington, I believe that if these principles are followed, a solution of the problem will come."

"So long as the Negro is given

the opportunity to get education to acquire property, to secure employment, and is treated with the respect he merits, I have the greatest faith in his ability to work out his own destiny in our Southland."

## Savings Bond Sales Lagging

The month of September again saw Savings Bond sales of near \$5 million credited to Florida buyers, it was reported.

"B" Bond sales were \$3,553,325. H Bonds for the month totaled \$1,010,000 and Florida's Federal agencies' credit added \$237,027 to achieve a \$4,800,352 figure, 20.5% ahead of September 1953. Lively added, "Palm Beach County sales were \$166,668 and for the year-to-date now show \$2,312,772."

"As we approach the closing months of the year it appears however that Florida will have to step up its tempo of bond purchases if our state is to reach the full attainment of its \$7.4 million quota assigned by the Treasury Department as a part of its program of 'a billion more in '54', the minimum which Treasury officials calculated must be bought to protect its sound money program."

Mr. Lively stated, "The present levels of bond purchases carried throughout the remaining weeks will leave our state somewhat more than \$6 million short," he reported.

"Savings Bonds provide the individual investor with a choice of either deferred interest income which adds to the growing guaranteed cash values in the E Bond or current income by Treasury check every six months in the case of the Series H."

Chairman Lively explained, "Both are free of market fluctuation, pay 3% compound interest when held for the 9 years and 8 months till first maturity. The E may be retained for an additional 10 years and will then return 80% more than the original investment, \$20,000 of each may be purchased by any individual within one calendar year," he concluded.

Others attending were Mrs. Mrs. Merle Prevatt, Mrs. Rena Brannon, Mrs. Helen McKinley and Mrs. Quinn Shiver.

The Florida Cabinet has agreed to creation of a special fund for public donations toward construction of a \$500,000 curillon at Stephen Foster Memorial.

## Fire Prevention Conference Called

TALLAHASSEE — State Treasurer-Fire Marshal J. Ed Larson today announced that the fifth annual statewide fire prevention conference will be held at Orlando on Nov. 3 and 4.

In his invitation to county, municipal, district and other fire suppression authorities, Larson said: "It is imperative, in order to cope with whatever unrealistic situations which may exist in Florida, many of which have come to light as a result of inspections only recently made, that all men and equipment engaged and used in fighting fire be fortified to the fullest extent in the skills and the tools required to meet such situations, some of them being peculiar to Florida."

"While the conference stresses continuous prevention education, its chief objective is 'readiness at the fire house.'"

Members of Garden Club Take All Day Tour To East Coast

Seventeen members of the Belle Glade Garden Club went on an all day trip to East Coast Thursday with Mrs. Roy A. Bair in charge of visiting gardens program.

The group first stopped at the S. E. Florida Tuberculosis Hospital at Ft. Pierce, where Mrs. Greene, director of the hospital, presented a plant to Mrs. Corrine Greene, director of Social Work at the hospital for distribution throughout the hospital.

Mrs. Greene conducted members on tour of hospital, explaining facilities on each floor and also kitchens and lounges were visited.

Julius Thomas Floral Conservatory, Lake Worth was next on their list, where they were presented corsages and refreshments were served. The group then had luncheon in Lake

Worth followed by a business meeting at which time announcement was made that the November meeting would be a workshop on corsages. Mrs. F. L. Harris, Book service chairman will have display of books from the National Council of Books.

The last stop on the tour was Alberts and Metel Orchid Nursery, at Boynton Beach. The visitors were shown the greenhouse and other varieties of named orchids. Each member was presented with a plant for a souvenir.

Attending were Mrs. Bair, Mrs. George Farnall, Mrs. C. J. Auger, Mrs. Herbert Beck, Mrs. Thomas Bregger, Mrs. R. Y. Creech, Sr., Mrs. Luther Jones, Mrs. Paul Kirchman, Mrs. Ralph Kirk and daughter, Janet, Mrs. Harry Peters, Mrs. M. M. Substant, Mrs. Roy Shrontz, Mrs. Lennie Warren, and Mrs. Irvin Zumpf.

Per capita consumption of food in the U. S. during the period 1935-39, was 1,500 pounds. In 1953 consumption rose to 1,600 pounds. — Florida Farm Bureau.

### Loyalty Services Continue To Draw Large Attendance

The services for this coming Sunday night at the Community Methodist Church will continue to be as outstanding as those already conducted during the month of October, with the Rev.

H. Edward Garrett, minister, as the speaker. His subject for the evening will be "Living Sincerely in An Insecure World."

Special music will be one of the main features of the service, and after the message a motion picture entitled, "The Hidden Heart" will be shown. This is a splendid picture of its kind and one every one will enjoy viewing.

At the conclusion of the service a large number of people will be received into the membership of the church.

The nursery will be open Sunday evening and there will be someone in charge so that parents are at liberty to bring their pre-school children and leave them in the nursery during the worship hour.

Rev. Richard Blanchard and the "Sons of Wesley" who are members of his church in Coral Gables, drew quite a large congregation with their singing last Sunday night, and the minister's message, threw out a great spiritual challenge to the audience.

### Churches of Christ, Scientist

The fact that purification of thought and action removes the obstacles to individual growth, progress, and salvation, will be emphasized at Christian Science services this Sunday when the subject of the Lesson-Sermon is "Purification After Death."

Among passages to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will be this one (492:1-12):

"Being is holiness, harmony, immortality. It is already proved that a knowledge of this, even in small degree, will uplift the physical and moral standard of mortals, will increase longevity, will purify and elevate character. This progress will finally destroy all error, and bring immortality to light."

From the Bible the following selections will be read (Philippians 2:13-14):

"Brethren, I count not myself to have apprehended; but this one thing I do, forgetting those things which are behind, and reaching forth unto those things which are before, I press toward the mark for the prize of the high calling of God in Christ Jesus."

St. John's Church To Have New Budget

The vestry committee of the Episcopal Church of St. John the Apostle will meet next Thursday night to prepare the budget for the forthcoming year. Every member of the church will be asked to contribute to the budget, and the amount needed to get started on the new church building so that there will be only one drive for funds. Dr. G. R. Townsend is senior warden and Father John Chace is vicar.

Father Petrie will celebrate the Eucharist next Sunday at 9 a. m. in Belle Glade and at 11 a. m. at the Church of the Holy Nativity, Puhokoe, Hawaii. Father Petrie is vicar of the Puhokoe church, which is in Cleveland at 11 a. m. taking the service which will be broadcast over Station WSWN, Belle Glade.

State Of Officers Presented At WMU Meeting In S. Bay

South Bay Baptist Women's Missionary Union met Tuesday afternoon at the church for their Royal Service program with Mrs. John Cooper giving the devotion.

A report of officers for the coming year was given by the nominating committee, as follows: President, Mrs. John Cooper; Vice-president, Mrs. G. D. Graham; Community Missionaries, Mrs. William J. Williams; Program chairmen, Mrs. H. C. Willis.

#### Bible Scriptures Studied By Juniors At First Baptist

Juniors and teachers numbering 58 were present for the program of "Getting Acquainted with our Bibles" in the Junior department of Sunday School. The program centered around the books of the Holy Bible. Questions asked were found in the Scriptures by the assembly as follows: Who gave us the Bible? 2 Timothy 3:16; Why was the Bible written? John 1:1; How long will God's Word last? 1 Peter 1:25; What did David say God's Word was like? Psalm 119:105.

For an interest center, sixty-six pieces of cardboard were arranged to look like sixty-six books—the total number of the books of the Holy Bible. Ronnie Geckler was assistant song leader and Susan Clark assisted pianist. Ladies for the morning were members of the 12 year boys class.

A new member welcomed to the department was Beverly Kirkland. The weekly, banner for the highest grade of in dividual classes went to the class of Mr. McAllister's 99 year boys. Second rating was held by Mrs. J. L. Little, 11 year boys and third went to the class of Mrs. Josephine Hayes' 9 year girls.

#### Baptist Ladies Of Chosen Represented At State Meeting

Ladies representing churches of the Florida State Association of Missionary Baptist Churches met with the Executive Missionary Baptist Church of Mulberry, Florida, Thursday, October 7th, for the purpose of organizing a state-wide Ladies Auxiliary of these churches. The meeting was called to order by President-pro tem, Mrs. E. E. Swearingen, of Mulberry, presiding. A very inspiring program was rendered by Belmont Baptist Church of Clearwater, and First Baptist Church of Greenville. The morning session was presided by Elder Buford Chilcoat, pastor of First Baptist Church, Chosen, Florida.

Following a wonderful meal served by the ladies of the entertaining church, the meeting was called to order and a representative from each of the auxiliaries gave an oral report of the work they are doing. Officers were, President, Mrs. Fred M. Vining, Belmont Baptist Church, Clearwater, Florida; 1st vice-president, Mrs. H. H. Cunningham, Ardella Baptist Church, Lakeland, Florida; 2nd vice-president, Mrs. E. E. Swearingen, Eastside Baptist Church, Jacksonville, Tennessee; 3rd vice-president, Mrs. Irene Gaddis, South Riverside Baptist Church, Jacksonville, Tennessee; 4th vice-president, Mrs. C. L. Leallen, St. Petersburg 32nd Avenue Baptist Church, corresponding secretary, Mrs. Tetter, Glenwood Baptist Church, Jacksonville Bible and Tract Distributor, Mrs. Buford Chilcoat, Lakeland, Florida.

Next meeting will be held with First Missionary Baptist Church, Auburndale, Florida, July 20, 1955.

Those attending from First Baptist Church of Chosen were Elder and Mrs. Buford Chilcoat, Mrs. Edward Boree, Mrs. O. J. Price, Mrs. Irvin Gilson, Mrs. Ruby Barber, Mrs. Ruth Cox and Mrs. Emma Connolly.

How Christian Science Heals "A Rescue And Its Explanation"

WSWN (900 kc.) Sunday 9:30 a. m.

### TODAY'S Meditation

Read I Corinthians 2:1-5

Your faith should not stand in the wisdom of men, but in the power of God. (I Corinthians 2:5.)

Grief enters into every home at one time or another. For all of us there are outstanding dates which have become forever hallowed by some loss.

Our own home was left with a sense of irreparable loss when our only son, George, was killed on October 31, 1941, in the Finnish-Russian War. He was manly, pure minded, and lovable. His mother and I were almost paralyzed in our speechless anguish and grief.

The passing years have strengthened our faith in Jesus Christ as the only one who can satisfy our bewildering questionings. He also is the best of all comforters and the surest of all counselors.

For our finite minds it is impossible to imagine the bliss of heaven, and thus have a foretaste of it. But by our faith in God, we know "ye have not seen, nor have heard, neither have entered into the heart of man, the things which God hath prepared for them that love him."

PRAYER

O Lord, help us to remember we pass through this world but once. Give us grace to be faithful to the calling Thou hast given us in the work of Christian living. In the name of Christ, our strength and our Redeemer. Amen.

THOUGHT FOR THE DAY

Living among the cross outspread, Embrace alike the living and the dead.

Yrjo Jarnberg (Finland)

#### SABBATH SCHOOL LESSON FOR OCTOBER 24, 1954—BASED ON THE INTERNATIONAL PRAISE LESSONS FOR CHRISTIAN TEACHING

SUBJECT—Guidance for Family Living—Prepared by Bob Lanier

SCRIPTURE—Proverbs 4:1-4; 6:20-23; 19:13-14; 31:10-12

Purpose: Are you taking your responsibilities as seriously as you should? Does the fact that a child is in the world make any difference in the way you live? Do you want to "have a good time" in the way you do what you did before the child came into your home? If you have true feeling and attitude, then you are not taking your responsibilities as seriously as you are obligated to do. If Solomon was the author of Proverbs and it is generally acknowledged that he was one of the authors, then the life he leads is a good example. His downfall was not due to ignorance for he certainly seemed to have begun his reign on the right note, but it is indeed apparent from the study of this book that his home life was a general mess. He allowed marriages to take place with what might be termed heaven empires. He permitted idol worship and actually built shrines for the worship of gods and goddesses, and he was a worshiper of those practicing idolatry. When old Solomon died, he did not have a son that was worthy to lead the kingdom of God's chosen people.

Now, you and I know full well what is right and what is wrong, generally speaking. Of course, there are times when we all make errors unintentionally and when found out, we make an earnest effort to correct them, but do we at all times act with wisdom or do we let temptation get the best of us and go along and do the things that we know are not wise? It is our duty as parents to teach our children in the way they should go. When there are children around, we just simply can't do as we please and expect the child to get the proper training. If we do as we please, the child is going to be neglected. Many children are subjected to bad sitters at the cost of the child. The movie is considered a safe place for Junior with parents and make decisions they want to go about. We surely have a selfish attitude when we place our pleasures above the good of the child. Let's think it over.

Then there is the complaint paid to a good woman, in chapter 31:10-12, "Who can find a virtuous woman? for her price is far above rubies. The heart of her husband doth safely trust in her, so that he shall have no need of spoil. She will do him good and not evil all the days of her life. **AN OPEN LETTER TO PARENTS**

You, better than anyone else in Palm Beach County know how well your children were protected under our Student Accident Plan during the last school year. In spite of this record, your School Board saw fit to disqualify our Company and our Plan, and ask you to accept companies and plans which you do not know.

Our Plan actually offers more benefits than the plans you are asked to accept, but still our Company has been disqualified. This action has hurt the integrity of our Company and our duly licensed agent, Mr. William A. Thiebaud of Belle Glade.

We actually paid more in medical payments on the injuries of your children than we received in premium, yet we were willing to continue to offer this excellent protection for your children for the coming school year, but your School Board says you cannot have our Plan. IS THIS FAIR?
